Work Experience

↪ **Frontend Web Developer** **Personal Projects | 2025 – Present**

- Developed responsive web applications including a Temperature Converter, AI Content Studio, and Number Guessing Game using HTML, CSS, and JavaScript.
- Built interactive user interfaces and ensured smooth user experience across different devices.
- Implemented application logic and handled user inputs efficiently using JavaScript.
- Designed clean and structured layouts focusing on usability and performance.
- Managed source code using Git and GitHub for version control and project organization.
- Worked with API-based functionality in projects to create dynamic and data-driven features.
